

Insurance 101

More Money, Less Stress

While losing weight, eating better and exercising rank highest among the top 10 New Year's resolutions¹, also making the list is saving more and spending less.

If keeping more money in your wallet is one of your resolutions, we can help. Here are some tips for not only saving some green, but organizing your insurance and decreasing your stress:

Reduce clutter by reducing paper. Did you know that you can sign up for paperless policy and/or bill with Kemper Personal Insurance? With paperless policy and paperless bill, you won't receive paper policy documents or bills, but you can access them 24/7 online. You can also sign up for email alerts to stay on top of what you owe.

When you ditch paper, you gain file space. Yet you can access your documents whenever you need them, from a safe and secure online space. Sign up is quick and easy; visit kemper.com and select **Customer Login**.

Pay the automatic way. We get so many bills these days—mortgage or rent, car payments, utilities, cell phone, streaming services—it can be a challenge to keep track of them all. If you opt for electronic funds transfer (EFT), payments are automatically deducted from your bank account, so you know your premium will be paid on time.

And guess what? Both of the above can save you money. You may be eligible for savings on your insurance by going paperless and paying by EFT. Start the year right—sign up for paperless and EFT, and you'll fulfill your New Year's resolution. And 2019 has only just begun.
